FRANCHISE AND COMMITTEE

Councilmen Go on Record as Being Opposed to Giving Away Valuable Privileges-Railroad News.

The Salt Lake & Suburban Railway company, which is seeking a franchise to operate street cars in Salt Lake and vicinity, yesterday afternoon filed a copy of its charter and by-laws with the secretary of state. Last night the petition of the company for a franchise to operate its road in this city was presented to the streets committee of the city council by A. V. Taylor, the local attorney who is looking after the company's interests here. After the proposition had been made and con-siderable time spent in discussing it, the matter was taken under advisement for a week. The general tone of the session, however, pointed to the outscome eventually being that the fran-ichise might be recommended by the ommittee upon the terms the company mre willing to make.

The charter which was granted by the state of Delaware places the capital of the corporation at \$500,000, in 5.000 shares at the par value of \$100 each. The names of the officers of the company, with the exception of President J. H. Powers, are not at this time forthd. H. Powers, are not at this time forth-coming. The subscribers to the stock as set forth are C. L. Furey, vice presi-dent of the American Guaranty com-pany of Chicago; Lewis Pitcher, sec-retary of the same company, and At-torney A. V. Taylor of Salt Lake. Mr. Taylor estimates that the cost of

construction and equipment of the 30 miles of road to be operated will be about \$360,000, or \$12,000 a mile. This will leave \$40,000 to spare.

When Mr. Taylor appeared before the committee last night and urged that

the franchise be granted his company, he found a sentiment against the free gift of any more franchises in Salt Lake. Councilman A. J. Davis opened the ball by asking what compensation the new company proposed to give the city for the franchise, as personally he desired to go on record as being opposed to granting any more right-of-ways through public streets without compensation. Mr. Taylor replied that he expected only such privileges as had been granted orders attack reflexed to been granted other street railroads. He said that the company was prepared to pay an annual tax of \$25 on every car operated on its system.

This brought from Councilman Thomas the suggestion that instead of de-

as the suggestion that instead of de-manding a fixed sum as compensation he thought that if the city treasury received a certain percentage of the gross earnings of the company every year that it would be fair to all parties interested. This plan Mr. Taylor thought would be favorably considered by the promoters of the company. He by the promoters of the company. He said, however, if a money compensation should be demanded by the city he felt confident that such a proposition would not be entertained and the project would be promptly dropped. He then read a letter from the American Guaranty company of Chicago, offering, provided that the anty company of Chicago, offering, provided that the necessary franchises were forthcoming, to underwrite the company's bonds to the amount of \$400,-

The committee finally decided to let the matter go over for one week.

LAST OF THE CUT-OFFS. Wyoming Division of the Union Pa-

cific Now Straightened Out. The last of the cut-offs in Wyoming on the Union Pacific main line has been pened for regular traffic and as far as s practicable the Union Pacific now has

as straight a line through that state as experienced surveyors can obtain. The Lookout cut-off, saving three-quarters of a mile in three miles, was used for the first time on Monday, train No. 4 from the West being the first to pass over it. The new line which was built by Mahoney Bros. of Omaha eliminates some very bad grades and curves and has been constructed so that it is, even at this early date, in shape to run
the heaviest trains over at a high speed.
A new station, section house and other
necessary building are now being erected about half a mile from the old Lookout. The old line has been abandoned entirely and the track will be torn up at

Tried On. The county attorney decides that Hamilton, the slayer of R. H. Brown, cannot be convicted of murder, and will make the charge against him voluntary manslaughter. The accused has been kept closely confined in his cell as the police say they have been directed by the county attorney to allow no visitors. However, the county attorney states that no such instructions have been given, and the police can admit any one they please to see Hamilton. The prisoner stated yesterday that he and Brown got to where they should go to work, and Brown threatened to shoot him twice in consequence of that quar-rel. Hamilton states that his mind is not very clear as to what happened in the employment office, beyond the fact that the quarrel was renewed there and Brown attempted to draw a gun, saying

he would kill Hamilton. Then the latter pulled his own gun, and before he realized what he did, he was firing it. Hamilton alleges Brown was not kneeling at the time he was shot. The complaint in the case, charging Hamilton with manslaughter, was drawn up by County Attorney Christensen today.

Governor Wells Receives a Letter Concerning Them.

PROVISIONS OF THE WILL.

Prominent Utah Educators Appealed To for Views Regarding The Matter.

Governor Wells is in receipt of a communication from Secretary of State John Hay of Washington, D. C., enclosing a communication from the trustees under the will of the late Honorable Cecil John Rhodes, containing the provisions in the testamentary dispositions of Mr. Rhodes relating to the establishment of scholarships at Oxford for students from the United States and the British colonies. The clause in the will pertaining to the American scholarships is as follows:

"I appropriate two of the American scholarships to each of the present states and territories of the United States of North America provided that if any of the said territories shall in my lifetime be admitted as a state the scholarships appropriated to such ter-ritory shall be appropriated to such state and that my trustees may in their uncontrolled discretion withhold for such time as they shall think fit the ap-propriation of scholarships to any ter-

"I direct that of the two scholar-ships appropriated to a state or terri-tory not more than one shall be filled up in any year so that at no time shall more than two scholarships be held for

the same state or territory."

In the selection of students it is the desire expressed in the will that "regard be had for (1) literary and scholastic attainments; (2) fondness of and success in manly outdoor sports; (3) qualities of manhood, truth, courage, devotion to duty, sympathy for the protection of the weak, kindliness, unselection of the weak, kindliness, unselection of tection of the weak, kindliness, unsel-fishness, and fellowship, and (4) his ex-hibition during school days of moral force of character and of instincts to lead and to take an interest in his school mates."

Secretary of State Hay states in his secretary of State Hay states in his communication that the trustees are desirous of making regulations with regard to the method by which qualifications of candidates are to be ascertained and as to the examinations, and to this end request the views of the chief officials having the control of education in the various sites and terrication in the various states and terri-

GETS SPURIOUS GOLD.

Stranger Claims to Have Been Imposed Upon at Calder's Park.

A young laboring man, who seems to be a stranger in this city, walked into the office of United States Marshal Heywood this morning and handed to Deputy Marshall Smyth a spurious \$5 gold piece. He declared to Mr. Smyth that the coin was passed on him over one of the bars at Calder's park on Sunday last. He said that he and a companion went up to the bar to get a drink of beer and he put down a \$20 gold piece and the counterfeit was mixed up in the change that was handed back to him. As soon as he discovered it he says he went to the bar tender and demanded \$5 in good money at the same time charging him with having passed the bad coin off on him. The bar tender of course disclaimed all knowledge of the matter and stoutly maintained that he had never possessed a counterfeit.
The stranger stated to Mr. Smyth

that he did not expect to get his money back, but he thought he would show the spurious piece to the officers and put the public on their guard as he is of the opinion that a considerable amount of such pieces are being handled in the community.
